“ Enriching the lives of sauce makers ”

- Alexander Bergen
(Co Founder and
Head Professor)

Welcome to SCCU!

The Sauce Community College University of Sauce is dedicated to providing a quality sauce education.

Here at SCCU, we are committed to turning today's generation of hooligans, into the head sauce chefs of tomorrow. Everything from our classes to our dormitories are shaped to give our students the most focused of sauce education and equip them to not just recreate sauces, but to create the sauces of the future.

The Campus

- Founded in 304 BC, our faculty started with a simple paste of wild grass, water, and dirt. Now we are full scale community college university that hosts students from all over the universe.
- Our dormitories, in order to fully immerse our students in sauce education, are indeed actually large vats of sauce.
- Our Campus is located underneath the Siberian Mountains in an extensive underground tunnel system.

Our Purpose

- Our purpose is to equip determined to students to create and recreate the greatest sauces in the Milky Way and beyond.
- Each year we accept only 100 future sauce makers in order to make sure each student receives adequate education and attention. Our business is the sauce of the future, and we take it very seriously.
- We offer a wide variety of sauce focused majors including: Sauce Appreciation, Sauce Theory, Sauce History, Sauce Analysis, Sauce Creation, and Sauce Dancing.
